PERFECT COMBINATION OF DIFFERENT MATERIALS FOR SUSTAINABLE QUALITY.

From which parts does a mixer consist? Excellent details, durable components, compatible hardware result in Adell quality. High standard, long life combined Adell mixers superior performance and long term performance thanks to the compatibility of all components and spare parts and durability. Carefully engineered, all parts complying with the standards.

ERGONOMIC Handles

Adell handles are produced of high quality zinc material. It provides ease of use with ergonomic forms that grip the hand.

%100 BRASS Mixer spouts

From quality raw material produced long-lasting chic of the sink. Ergonomic and easy to use In forms and in different sizes for your to use the water comfortably.

PLUMBER FRIENDLY Fixing deck-mounted parts

Adell mixer connections made from stainless and brass raw material. It provides to easy installation, easy replacement and easy maintenance.

Depending on product groups and designs, specifications may vary from spare parts.

EASY-OPERATED Bath mixer diverters

Automatic and compact Neoperl diverters are used. Long life and performance guarantee. When pulled up and locked to the right, it locks, when the battery is switched off, the pressure automatically switches to the crown position. Due to the locking system of the shower control unit in the bath and shower baths, the water flow from the handgrip is not affected by pressure fluctuations.

%100 BRASS MADE-IN-HOUSE Wall connection parts

Wall-connection eccentrics and raccors are produced from the first quality brass raw material. The wall connection elbows are 10-15 mm longer than the market products, so the threads do not need to be extended.

WATER SAVING Aerators

Aerators are critical parts that determine the overall performance of a mixers. In the aerators, the water flow is enriched with plenty of air. This ensures that the water is like a soft, non-splashing flow and full shower drops. These aerators allow you to save up to 50% from water gives with a softer flow with its ability to mix water with air.

%100 BRASS Body

It is produced from high grade brass raw material by technological casting system. The wall thicknesses are designed to meet performance criteria for water passages.

KTW

GUARANTEED FOR MORE THAN 1.000.000 CYCLES Ceramic cartridges

Cartridges are the heart and most important working parts of mixers. Adell products are made of long-lasting and quality cartridges with world quality ceramic discs. It has also 35 mm, 40 mm, with legs and without legs. We also use special cartridges in some series. Full tightness, heat resistance, abrasion resistant, but all are long lasting.

Certified Flexible hoses

Basin and kitchen mixers come along with %100 tested leak-proof stainless steel or PE braided PEX flexible hoses. They are healthy and strong.

Mixer Series

To us, mixers are the leading actors of bathrooms and kitchens.

We designed an extensive range of mixers for you,
leaving you various choice.
We transformed dreams, trends, fashion into designs,
processed the most fashionable surfaces.

Our bathroom and kitchen fittings offer modern and original
design, environmentally friendly use, with diverse colors,
designs and model options to suit your lifestyle in bathrooms and kitchens.

Azur

Eye-catching modern desing.

A distinctive and stylish design with geometric shapes and subtle angular edges, which looks beautiful within a contemporary styled bathroom.

Kitchen Mixers

**We are very passionate to combine design
and function in the kitchen.**

We believe a home kitchen is the place for the most intimate moments
and is the center of that house! Innovative, functional Adell kitchen
mixers enhance your kitchen.

Kelvi Kitchen Mixers

Flexibility Meets Design

Kelvi has the flexibility to deliver water to every corner of even double sinks with its spiraled head and 360° swivel spout.

MagnetClick™

At the end of Use, Adell MagnetClick™ magnetic system makes it easy to pull back the hood and pin it down.

EasyFix™

Thanks to special water connection, it is very easy to assemble the mixer in narrow spaces.

Soft Flow Function

As standard the water comes in the soft form mixed with air thanks to water saving aerator.

Jet Flow Function

With the pull of the button located at the bottom of the spout, the water flow turns into strong jet form to easily clean tough remains on dishes.
