

**TILES**  
**Manufactured in India**

# Born In Morbi

The Home of ceramic Tiles, spreading happiness all over the world

The history of this manufacturer is not just a history of the development of a successful enterprise, it is the history of a family that began with the ambitious ideas of one man and grew to a close-knit union of father and sons, brothers and nephews, united by a common favourite business. Love for your work and enjoyment of work are not only the philosophy of the company, but also family values that are passed down from generation to generation. Exceeding expectations, creating the impossible and looking for new ways to grow - these are the things that help the family business prosper and bring pleasure to clients around the world.

Love for natural materials, natural textures and colors is the main source of inspiration for the creation of unique Varmora ceramic tile collections. Youthful curiosity prompts new discoveries, bold solutions and experiments, thanks to which new non-standard product formats are created. Over the past two and a half decades, the family business has grown into a nationwide company producing quality ceramics, porcelain and ceramic tiles. Led by Managing director, the company has an extensive network of more than 5,000 retail points and more than 700 dealers, 20 branches with more than 1,200 professionals across the country.

The directors has created a modern infrastructure by introducing new technologies and modernizing production technologies to improve the quality and production capacity. The company has 10 modern factories throughout the country, with a total area of more than 100,000 square meters, the capacity of which allows it to maintain its status of industry leaders.

With concern for the environment, the Directors has Implemented several environmentally friendly production technologies, including technology aimed at saving water. Sophisticated and extensive research and development programs have also been created to help the company strive to create more innovative products.

**25+** years on the market

In 1994, the first, company ceramic tile factory was built. For the last 25 years we have gained experience, introduced innovative technologies that allow us to continuously improve the quality of our products and implement the most incredible ideas. We have grown to 9 factories producing all types of porcelain stoneware and ceramic tiles.

**1**st place in the export of porcelain stoneware in India

Due to the strict compliance to the high-quality standards required for certification in different countries and creative approach to design, the company, over the past two years, has taken the leading position in the export of porcelain stoneware in India.

**9** large factories and **10** production lines

From the very beginning until today, we have followed a basic principle - to develop a family business only with the help of the best innovative production technologies. This allows us to implement non-standard solutions and implement unique design solutions - to surprise and exceed market expectations. Therefore, in production we use only the latest industrial equipment imported from Italy and Spain.

Represented **70+** countries around the world

Our aim is to make our products decorate many homes around the world. But besides this, it is important for us to be present in foreign markets ourselves in order to provide quality service and convey the philosophy of the company brand.

### Certification

Responsibility for the quality of products and strict adherence to technological standards allowed our company to obtain not only European certification ISO 9001-2008, but also CE / CPR 305/2011. This proves the high competence and powerful production capabilities of the company, which guarantees high product quality.

**1200** employees

Our employees are more than just a production force - they are our family. Thanks to many years of experience, qualifications, hard work and most importantly love for their work, each of them contributed to the development of company from a modest factory to a large manufacturing company. We can trust the quality of our products to the people who are part of the company.

**150+** exhibition showrooms

To showcase its unique design and excellence in ceramics, the company presents its products not only in numerous retail stores and with the help of distributors, but also in over 150 of its own showrooms.

# A HISTORY OF THE COMPANY

1994

Establishment of the first ceramic tile factory in Morbi – place of the extraction of natural raw materials for the manufacture of ceramic products

1996

2 more ceramic tile factories are opened

1999

The production of floor tiles is launched

2003

Construction of a new large plant begins

2004

Introduction of 300x450 mm large size rectified wall tiles

2005

Manufactured biggest Vitrified tiles in 1200x1800mm slabs for the 1st time by an Indian company and 4th in the world

2009

Started the construction of India's biggest & ultra modern wall tiles plant with Digital Printing Technology.

2010-2011

Production capacities are being improved

2012

Introduction of new dimension for floor tiles – 600x1200mm. Launch of a new GVT line with Digital Printing Technology.

2014

Launch production of Sanitary ware

2020

Stone laying for two new plants construction

Glossy Tiles are made using a special transparent glaze. With extra colors, its beauty and sheen is enhanced to a better level. Imported, special transparent glaze is applied on the surface and the tile is heated in a furnace to impart a glossy resembling crystalline glass. A thin layer of glass glaze is also applied on surface which gives shine and brightness. This imported glaze is spread with special equipment for more smooth and transparent surface. With extra polishing, this tile is imparted a peerless sheen that is equaled by none. This tile series is highly suitable for interior wall and floor applications for Residential & Commercial areas. This is 100% replacement for Italian Marble due to its glossiness and high durability.

- Digital Printing +
- Low Water Absorption
- Eco Friendly
- 100% Replacement for Italian Marble
- Nano Technology
- Zero Maintenance
- Random Design
- Imported Super Glaze
- High Reflection Glaze

# Matt

Behold the natural enigma — celebrate the organic feel of brilliance with our Matt finish

Matt finish – it is a clever design that highlights a natural beauty of the surface. Tiles with a flat finish do not reflect light and offer modern look. It will become a real decoration for home and office.

- Digital Printing +
- Low Water Absorption
- Eco Friendly
- Zero Maintenance
- Rough surface
- Random Design
- Imported Super Glaze
- Anti Skid
- Highly Durable
- Matt surface

# High-Polished

Glare-free surface shine is here to make dazzle prominent

Ceramic stoneware with High-polished finish is being made by using special clear glaze. Thanks to a wide range of colors, it's beauty and gloss gets to a higher level of aesthetic. After applying glaze to the surface the tiles are heated in furnace to give them a shine which makes it look like a glass. Additionally a thin layer of glass glaze applied with the help of special equipment gives even more expressive color and brightness. Thanks to polishing the material gains unrivaled shine, which has no equal. This porcelan stoneware is excellent for wall and floor cladding for both residential and commercial premises. Deep gloss and durability is a 100% replacement for italian marble.

- Digital Printing +
- Low Water Absorption
- Eco Friendly
- Zero Maintenance
- Nano Technology
- Random Design
- Imported Super Glaze
- High Reflection Glaze
- 100% Replacement for Italian Marble

# Silk Satin

Silky, smooth and utterly stylish tiles having lustrous appeal and shine

Silk-satin finishes are produced through the same process as polished but using fewer polishing wheels. This lends a softer and less shiny appearance to the tile, the perfect balance between polished and matt.

- Digital Printing +
- Low Water Absorption
- Eco Friendly
- 100% Replacement for Italian Marble
- Zero Maintenance
- Random Design
- Smooth Surface

# Metallic

Give a metallic lift to your space by fixing these masterpieces

Metallic Finish tiles impart a sheen that few can easily replicate. Utilizing the best technology, metallic liquid glaze metallic flakes are applied on surface, compressed & fired furnace to achieve an authentic metallic finish. This uses machinery of the latest make.

This metallic glaze is applied through air power machine which results in creating layer of metallic material on surface and helps to penetrate inside. After heating up in kiln, it gives a Swarovski sparkling and glittery look. Subtle surface variations can be easily introduced via fine digital printing to achieve aesthetic perfection.

It has a look of authentic metallic materials, so it is highly suggested for home applications in bathroom, living room, kitchen etc. and can also ideally be used for wall cladding in domestic and commercial areas.

- Anti Skid
- Highly Durable
- Matt Setting Effect

# Rocker

Feel the presence of panache and flamboyance all around

Rocker finish works as the perfect glory enhance for a variety of abodes. It gives a unique appeal to the overall aura of the room. Non-slippery, abrasion resistant and easy to maintain reactive finish tiles come with a promise of durability and reliability. The pigments used for making reactive ink finish surfaces are non-combustible when exposed to extreme heat and do not allow seepage of water which in turn adds life into the tile. Also, as solid color composition is its biggest forte; pleasing surface beauty is guaranteed.

- Low Water Absorption
- Anti Skid
- Highly Durable
- Zero Maintenance

# Kerinox

Nourish the ideas of distinctive verve

Kerinox has an interaction of a special material and its unique application, which gives the individual characters. The finish consist of two applications: the first starts with the base glaze applied by the bell application with the density of 1.9, then proceeded with digital application (all the printing designs). The second is the Kerinox: it has the special material mix with medium to flow by the bell application. Then it is proceeded with the fire application on temperature up to 1200 c with 80 firing cycles.

- Digital Printing +
- Low Water Absorption
- Eco Friendly
- Zero Maintenance
- Random Design
- 100% Replacement for Italian Marble
- Imported Super Glaze

2	Resistance to Household Chemicals	IS - 13630 - 8	Class AA,Min	Class AA
3	Resistance to Acids & Alkalis	IS - 13630 - 8	Required If agreed according to chemical resistance class indicated by manufacturer	Resistance

The Company Values given above are own valued, Which we tries to maintain, how ever test results may differ up to the limit prescribed under IS 15622 :2017 (GROUP B I a)

\* Minimum 5 On matt tiles.

Note: Colour shown are as accurate as the limitations of the printing process will allow. Prospective customers are advised to inspect a sample of the tile before ordering. Our effort has been made to ensure the accuracy of the information given. However, the company reserve the right to change the specifications without prior notice. Sometime variations in shade or size being inherent to ceramic industry may occur. Before fixing, we advise you to follow the fixing instructions on the cartons (box) of the tiles. No responsibility will be accepted by the company once the tiles have been fixed.
